

SOLIS VitaDry – Food Dehydrator

Healthy and vitamin-packed snacks - easy and home-made.

Type 8210

Large touch-sensitive control panel with illuminated icons

Choose from 10 programs or manually adjust the temperature and time.

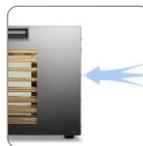

Wide range of applications

Experiment with fruit, vegetables, mushrooms, herbs, meat, fish and much more with up to 8 racks.

Interior lighting

Everything in view thanks to the switchable interior lighting.

Consistent dehydration

The air is drawn in from the rear and distributed evenly across all levels.

Transparent windows

Thanks to the windows on all sides, you can see the dehydrating food without opening the door and disturbing the dehydrating process.

Helps reduce food waste

Preserve excess produce and turn them into healthy snacks like dried fruits, veggie chips and jerky.
